We have a very special offer to make. A Free Cabinet of Initial Note Paper will be given to every purchaser of 25 or more Personal Christmas Cards. This Cabinet of Note Paper will have your initial stamped in gold. This is a particularly nice package of note paper. Don't delay.

ARMISTICE MEMORIAL SERVICE WELL ATTENDED

The annual Armistice-Thanksgiving service, held in the Orpheum Theatre on Monday forenoon, was very largely attended and most impressive.

The chair was occupied by Capt. J. Angus McDonald, president of the Blairmore Branch of the Canadian Legion, B.E.L.

Service opened with two minutes of silence, during which the audience stood with bowed heads, in remembrance of those who had fallen in the great world conflict of 1914 to 1918. This was followed by the singing of "O Canada," with piano accompaniment by Mr. W. Fraser.

The Memorial prayer was offered by Rev. J. W. Smith, B.D., followed by an address by His Worship Mayor J. H. Farmer, and the singing of "O God our help in ages past." Next followed Scripture reading by Rev. A. S. Partington.

The address of the occasion was delivered by Mr. J. E. Gillis, and was listened to with rapt attention on all. Following the singing of "Lead Kindly Light," the Roll was called by Comrade J. W. Whitehead, with responses made by the chairman; then the "Last Post" was sounded by Mr. I. Lowe and solo, "The Trumpeter," by Mr. Arthur Hadwell.

The service closed with thanks being tendered those who attended and assisted, and particularly to Mr. R. Rinaldi for the free use of the Orpheum Theatre for the occasion.

Following the service, the veterans, accompanied by members of the I.O.D.E., paraded to the cemeteries, where graves of those who enlisted, but died at home, were decorated.

CATHOLIC BAZAAR SATURDAY NEXT

Do not overlook the big events of the season, namely: St. Anne's Bazaar, at the opera house on Saturday of this week, and the Blairmore Players in "Tons of Money" at the same place on the night of Wednesday, November 26th. The latter needs no introduction, having on former occasions staged plays with real success. As for the former—well, the ladies promise you whales of entertainment and as an added attraction will operate several tables of "Housie-Housie," refreshments, fancy work, home cooking, etc., and this with the big tombola draws assures real money's worth. Don't miss either of these.

INSTITUTE OF MANUAL TRAINING

Owing to the kindness of Mr. T. Campbell, the bench equipment has been increased. This enables us to take a few more students for both 1st and 2nd year work. One or two older boys without previous training can be arranged for in the senior class on Tuesday at 7 p.m. if desired.

A box of forty books has been donated to the Institute Public Library by Mr. Kerr, which is gladly acknowledged.

DAYLIGHT TRAIN SERVICE FROM LETHBRIDGE PROMISED

When President Batty of the Canadian Pacific Railway, visited Lethbridge on his annual tour of the west some weeks ago, he announced the construction of the Kootenay Landing-Procter Link, which will do away with the water gap on the Kootenay Lakes and make it possible to run a train clear through from Lethbridge to Vancouver via the Crows' Nest Pass and Kettle Valley, would be completed some time before the end of the year, and just one and a half years after start of construction.

Now comes word that Dutton and Grant, contractors have completed the grade ten months before the time set in the agreement, with the result that steel is being laid, and it will be only a few weeks before the new link is opened for traffic.

There is very considerable talk among railway men here that, following the opening of all-rail service to the coast through the Crows' Nest Pass, a big change will be made in the passenger service along this line, and that the through trains will give Lethbridge daylight service, with local trains arranged at different points on the line to handle other than through traffic. Nothing can be secured officially regarding any change, though the general expectation is that the first of the new year will see the long-sought daylight trains through the Crow put into effect.—Lethbridge Herald.

ST. CYRIL'S BAZAAR IS SUCCESS

St. Cyril's church annual charity bazaar concluded at Bellevue on Saturday and was voted a success. Tombola prizes were awarded as follows: 1st, Mr. A. Mattson, Bellevue, ticket number 739, chesterfield table, donated by the Knights of Columbus; 2nd, Mr. W. J. Bartlett, Blairmore, ticket number 935, gentleman's 14k gold signet ring, donated by H. Birks & Sons, Ltd.; 3rd, J. R. McLeod, Bellevue, ticket number 538, two tons coal, donated by James Cardie; 4th, J. Vysobild, Bellevue, ticket number 607, ham, donated by H. Zak; 5th, Sasto Filenato, Bellevue, ticket number 417, five-dollar gold piece, donated by Mrs. S. J. Loney; 6th, A. Litherland, Bellevue, ticket number 787, Christmas cake, donated by Mrs. J. J. McIntyre; 7th, Frank Miedesky, Bellevue, ticket number 821, casserole, donated by Mrs. D. Morris.

The ladies of the Bellevue C.W.I. wish to thank those who helped to make their bazaar a success.

COURAGE!

Miss Agnes McPhail attacked tariff protection in Washington. You have to admire her for her courage. Attacking protection in Washington is like attacking Bolshevism in Moscow, Fascism in Rome and Conservatism in Toronto.—Ottawa Citizen.

A business man says that a shortage in any commodity automatically raises its value. This is doubtless the reason for the high price of evening gowns.

Let these 6 vital Salts, rid you of PIMPLES

Would you like quickly to free yourself of those hideous pimples—those ugly blackheads—and have that smooth and soft skin perfection you've always craved?

Do you want to have eyes as dazzling and bright as your dancing in a summer's sun?

Would you like to enjoy glorious health with plenty of energy and possess a keen mind?

Then take a quarter teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast!

Kruschen is a combination of the six vital salts which your nerves, glands and body organs ought daily to receive from food if they're to function correctly and which are impossible to obtain in these days of modern cooking.

Kruschen swiftly clears your blood of those harmful acids which cause your skin to erupt—you'll possess a skin like velvet, and a health perfection you didn't think possible!

WORLD HAPPENINGS BRIEFLY TOLD

Sir James M. Barrie has been installed as chancellor of Edinburgh University, his alma mater, in succession to the late Lord Balfour.

Dr. Frank B. Jewett, president of the Bell Telephone Laboratories says plans are being made to lay telephone cable under the Atlantic from Newfoundland to Ireland.

The French Government has decided to erect a stone memorial to the victims of the British airship R-101 on the field where the dirigible met disaster.

Though lower in value, Canada's catch of sea fish and shell fish for the first nine months of this year was larger in volume than for the same period of 1929.

The Nobel prize in medicine for 1930 was awarded to Dr. Karl Landsteiner, of New York, connected with the Rockefeller Institute of Medical Research.

Death of William Kingsford-Smith, father of Charles Kingsford-Smith, conqueror of both the Pacific and Atlantic oceans, was announced Nov. 2, at Sydney, New South Wales.

Canada and Australia were declared to be the two countries in the British Empire showing the most notable advance in aviation by C. R. Fairey in his first lecture as President of the Royal Aeronautical Society.

Canada's seventh national flower show was held at Montreal recently. The exhibition was the largest of its kind ever held in Canada, with entries in the 125 sections all filled.

A new world record of 387 eggs in 385 days was made by white Leghorn pullet number five in the east at Agassiz, B.C., under trapping rules. The eggs averaged more than 26 ounces to the dozen.

A consignment of 1,500 tons of flour from Fort Arthur direct to Aberdeen, Scotland, said to be the first shipment of this kind, has been sent to millers in Scotland and England.

Correspondence Course

Saskatchewan Plan Wins Enthusiastic Approval in Rural Sections

The correspondence course by which the Saskatchewan Department of Education has made high school instruction available to all students in the province unable to take advantage of ordinary high school facilities, has apparently won the enthusiastic approval of parents, students and teachers in rural parts of the province. Already a total of 461 pupils have been enrolled, while 1,200 application forms have been sent out in response to requests.

Paper Plant Keeps Busy

The Westminster Paper Company at New Westminster is operating its plant 24 hours a day with a staff of 100 men in order to keep up with its orders. The plant, in addition to a large domestic trade, is producing paper products for Australia, New Zealand, China, Japan, West Indies, South America and South Africa.

Parallel Drawn In Two Tragic Deaths

Thomson Perished With R-101, Huskisson Killed By First Train

A curious parallel is being spoken of in London between the death of Lord Thomson, Air Minister, who perished in the R-101 disaster, and that of the last Cabinet minister to be killed in an accident, William Huskisson, who met death almost exactly 100 years ago.

Huskisson who was president of the Board of Trade, was knocked over by a train when he was attending in his official capacity the opening of the first British railroad, the Manchester and Liverpool line.

His death caused a great outcry at the time against the new means of transportation.

The moral does not seem to be pointed out, British observers say.

(By Annette)

**THE BOLERO FROCK HAS FOUND
IMPORTANT PLACE IN SMART
WOMAN'S WARDROBE**

A youthful bolero frock full of charm and modishness. 'It is easily fashioned! Easy to wear! And it will meet all-day occasions smartly.

The front of the bolero falls softly back in jabot effect at the neck and the lower part detracting from breadth.

It is very slender through the hips. The lower skirt has inset plaits that give the appearance of box-plaits that sway so prettily in motion, otherwise hang sleekly straight.

This stunning tweed printed silk crepe frock is particularly nice for Autumn for street.

Style No. 918 is designed in sizes 14, 16, 18, 20, yards 36, 38 and 40 inches bust.

Black canton crepe is very effective and wearable.

Featherweight tweed in dark green colouring is jaunty, and so appropriate for spectator sports.

Size 16 requires 4 1/2 yards 39-inch with 1/4 yard 39-inch contrasting.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your full name and address, the number of the pattern and the size you want.

Offer \$500 For a Slogan

Competition To Be Held In Connection With World's Grain Show At Regina

Official notification has been received from the Italian Government by the management of the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1932, that Italy will be represented at the event. The acceptance of Italy makes the ninth country to accept the invitation to be represented at the World's Grain Exhibition and Conference. The other eight countries are: New Zealand, Belgium, Netherlands, Slovakia, Peru, Yugoslavia, Poland and Guatemala.

Preparations for the Exhibition and Conference at which over \$200,000 will be awarded in cash prizes are proceeding apace. The management is offering a prize of \$500 for the best slogan, the conditions governing the award of this prize being outlined as follows:

The slogan submitted shall not be more than ten words in length. There is no entry fee and the contest is open to the world. Not more than three suggestions are to be submitted by any one person. These must be written or typed plainly on one side of the paper containing the contestant's name and address must reach the office on or before January 31, 1931. Address Slogan Contest, World's Grain Exhibition and Conference, Imperial Bank Chambers, Regina, Canada.

First Metal Base Highway Has Just Been Completed For Test In Springfield, Illinois

Just about a year ago a prediction made at the meeting of the International Acetylene Association that iron would become the base of highways was soundly ridiculed, but the world's first metal base highway has just been completed in Springfield, Ill., as a test for wear and influence on the construction of highways in the future.

From plates were used on the rolled and levelled sub surface and then the section was covered with a mastic sand cushion and the brick wearing surface. The road just completed is the first test of three designs with which experiments will be made. The iron and steel industry is watching the matter with great interest because of the possible outlet for additional iron in the coming years.

Ferdian Balm. Cool and refreshing. Soothing and soothing. The perfect aid to beauty. Unrivalled in its softening and beautifying effect on the skin. Imparts a fresh and fragrant charm to the loveliest complexion. Banishes roughness caused by weather conditions. Safeguards the skin and keeps it smooth, soft and flawless. Use it for the hands and face. Always overstates in the highest expression of beauty.

Adds Thrill To Sport

Ski Runner Can Fly With New German Invention

Some of the thrills of flying are added to the winter sport of skiing with a pair of wings worn by the ski runner. The wings made of aluminum by a German inventor, are nineteen feet from tip to tip and enable the wearer to take short flights in the air after gaining sufficient momentum on the ski. They are so constructed that the ski rider is virtually seated in the centre of them when he leaves the ground. They are movable from a horizontal position and easily controlled, enabling the rider to change direction of flight.

Telephone Link With Australia

Regular Commercial Telephone Service Is Inaugurated

The American Telephone and Telegraph Company has announced it will inaugurate regular commercial telephone service between North America and Australia at once.

The new circuit, the longest ever established for regular commercial telephony, consists principally of two radio links, one across the Atlantic and the other between England and Australia. With the wire lines involved, the circuit between New York and Sydney is more than 14,000 miles long.

Ten persons were killed every day on French roads last year.

Danish pain with Mink's Liniment.

Canada Has Valuable Fur Farming Industry

Over Sixteen Million Dollars Invested In Fur Bearing Animals

Fur farming in Canada is now established as a leading industry. The latest available figures show that the industry today represents a capital value of \$22,800,017, of which \$16,401,493 is invested in fur-bearing animals.

Ten years ago the total value of fur-bearing animals on fur farms in Canada was placed at \$4,725,106. The industry today represents a capital investment of practically four times as much as in 1920. The silver fox heads the investment list with a capital investment of \$14,922,378—an increase of \$10,400,000 over 1920. The next from the standpoint of investment value is the muskrat, which now represents an investment of about \$600,000. With a capital investment of \$328,928 the mink comes next. This is an increase of 50 per cent. over the preceding year and of \$24,153 over 1920. The other, coyote, silver blue fox and beaver are other newcomers to the fur industry.

Recipes For This Week

(By Betty Barclay)

COFFEE FRUIT-CAKE

1/2 cup shortening.
1 cup light brown sugar.
2 eggs.
3/4 cup coffee.
1/2 cup milk.
1 1/2 cups flour.
3 teaspoons baking powder.
1/2 pound raisins.
1/2 pound citron.
1/2 pound figs cut in strips.
Cream shortening, add sugar, egg yolks, coffee and milk, stir together flour and baking powder, and add slowly. Add fruit, which has been slightly floured, and fold in beaten whites of eggs. Bake in greased loaf pan from one hour to one hour and a quarter.

PINEAPPLE MEAT LOAF

Mix thoroughly 1/2 lb. chopped pork, 1/2 lb. chopped beef, 1 cup drained crushed pineapple, 3 cups rolled cracker crumbs. Break in 1 egg. Work in 3 teaspoons salt and 1/2 teaspoon pepper. Pack into a bread pan and bake 45 minutes in a moderate oven (400 degrees Fahrenheit). Serve hot or cold.

Douglas' Egyptian Liniment should be in every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation and prevents fest.

An Author's Opinion

Hugh Walpole Chooses Six Books Worth Being Cited Literature

Hugh Walpole the novelist, said in a speech at King's College, London, England, that there were only six books in the world worth being called literature. He listed them as follows: "War and Peace," by Tolstoy; "The Illiad," Homer; the first volume of "Keats' Poetry"; "Arabia Deserta," Doughty; "Canterbury Tales," Chaucer.

As widely divergent as can be, was Mr. Walpole's comment on his selection.

Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1933

ACID CONDITION the common cause of pain and discomfort after eating --

GET RID of your dread of pain after eating. Eat without fear of "indigestion," sour stomach, disagreeable gas or headaches.

When your food ferments, "disagrees," lies like a lump in your stomach, it's a sign of too much acid. You need not resort to crude methods—take instead an anti-acid that will correct the condition. Phillips' Milk of Magnesia.

A spoonful of this pleasant-tasting, soothing fluid neutralizes many times its volume of acid. It restores the proper alkaline balance to an acid-stomach stomach and bows—assists these organs to function as they should.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, headaches, nausea or biliousness indicates an over-acid condition. Take a spoonful after and for several days and see how it sweetens the system. You won't be nearly so liable to colds or sickness. All drug stores—in 50c bottles.

Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the name Phillips' on wrapper and bottle.

PHILLIPS' MILK OF MAGNESIA

SUNDAY SCHOOL LESSON NOVEMBER 16

THE BELIEVING CENTURION—
A GENTLE WHOSE FAITH
JESUS COMMENDED

Golden Text: "And they shall come from the east and west, and shall sit down in the Kingdom of God.—Luke 13:29.
Lesson: Matthew 8:5-13.
Devotional Reading: Isaiah 61:1-9.

Explanations and Comments

The Centurion's Faith, verses 5-7.—One day, as Jesus entered Capernaum, a centurion approached Him. A centurion was an officer in charge of a century, a company of from fifty to one hundred men, the hundredth part of a legion. This centurion was a Gentile, possibly a proselyte, who had built a synagogue for the Jews at Capernaum (Luke 7:5). He came to Jesus and told Him that his servant, who was dear to him, lay at home sick of the palsy, grievously tormented. "Some diseases then classed as paralysis produce violent pain," we are told, "it would have been in accord with the general manners of his day—a day in which the servant was a slave without civil rights, liable to be tortured in a court of law, and to be slain if the caprice of a brutal master—if the centurion had scorned the inmates of his own household; on the contrary, he was dear to him, and he trusted him with the tenderness he would show to his son. Perhaps there is no surer or severer test of the meanness or magnanimity of a man's nature than the simple question: How does he treat his inferiors?"

The Centurion's Faith, verses 8-10.—The centurion declared himself unworthy to receive so great a Guest under his roof. "Only say the word, and my servant shall be healed," he said. Then he illustrated the power of a word from Jesus by his own experience: "For I also am a man under authority, having under myself soldiers; and I say to this one 'Go,' and he cometh; and to another 'Come,' and he cometh; and to my servant, 'Do this,' and he doeth it." If he, a man under authority to others, could say to his soldiers, "Go," and at once they obey, how much more might Jesus, under authority to God, say to the disease of the servant, "Go," and it would be gone! "Instantly, as it would seem, so large and true a conception of the world all held together in one sublime system of authority and obedience, running up to the highest, running down to the least of its activities, filled the soul of Jesus with delight" (Phillips Brooks).

And as he marvelled at the centurion's belief that he could heal at a distance, Jesus said to those with Him, "Verily I say unto you, I have not found so great faith, no, not in Israel!"

The Centurion's Reward, verse 13.—Turning to the centurion, Jesus then said, "Go thy way; as thou hast believed, so be it unto thee." Thy blessing shall be as great as thy faith. And the servant was healed in that hour.

Speeds Development of Plants

To shelter them from chill and speed their development every plant on some English truck farms is being provided with a hot-house of its own. The hot-houses take the form either of forcing jars of solid glass or pyramid-shaped metal frames into which panes of glass are set. The latter type is the most popular because the panes can be replaced if shattered. Each type provides the necessary ventilation through a hole at the top.

Closed Game Preserve

The Thelon game sanctuary east of the Great Slave Lake, which contains the last known herds of musk-oxen on the Canadian mainland, is closed to all hunters, both natives and white men.

Blood in the average human body travels five times the nautical distance between New York and Manila in one year.

For Dry Skin—Mink's Liniment.

Trouble For Labor Party See Clouds On the Political Horizon

The British parliamentary harrier is set at "storms ahead."

Those who have studied the age-old history and have followed the recent course of the parliament at Westminster declare there have seldom been more clouds on the political horizon.

The Labor government will face a strong criticism from both Liberal and Conservative wings of its opposition on the score of its stated Palestine policy—a policy which H. H. David Lloyd George, the Liberal leader, has stigmatized as going for towards nullifying the Balfour declaration of the hard-pressed war-time days.

The tariff controversy is the most uncertain element in present day politics and it threatens as much danger to the Conservatives as to the government. The Imperial Conference, by the very fact of its meeting and discussions, will probably force the issue in the British parliament.

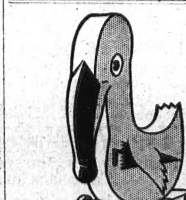

Then the government is determined to repeal the Trades Disputes Act—a piece of legislation which practically all labor sections have united in declaring "iniquitous." The press as a whole and labor speakers in particular have foreseen strong opposition from the House of Lords to the repeal of this act.

An Oil That Is Prized Everywhere

—Dr. Thomson's Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Rate Parent: Can't you think of anything but dancing? Aren't you ambitious? Don't you want to leave footprints on the sands of time?

Don't you want to be famous? Roll-Royce runs!

for ANY CHILD

WE can never be sure just what makes a child restless, but the remedy can always be the same. Good old Castoria! There's a remedy in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as your child has a fretful sleep, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Sometimes constipation. Or diarrhea—a condition that should never be neglected without delay. Just keep Castoria handy and give it promptly. Relief will follow every prompt use; if it doesn't, you should call a physician.

Fletcher's CASTORIA

EDUCATION

Speaking concisely, yet eloquently, Dr. W. G. Carpenter, principal of the Institute of Technology, Calgary, in a very able address to the School Trustees of the Hanna Inspectorate sitting in convention on Wednesday, introduced new thoughts and ideas on the subject of education that must be a source of inspiration to all who heard him. Seldom is opportunity offered to the inhabitant of a rural community to hear vigorous constructive thought expounded in so clear and logical a manner as on this occasion. The contribution Dr. Carpenter is making toward the practical education of the youth of this province is of priceless value. No less valuable is the philosophy he holds which occasionally could be glimpsed during the course of his speech. Coming from a less distinguished and less able a man than himself the viewpoint presented could very easily be termed revolutionary. He declared that "school is but the beginning! Education goes on to the grave. Why try to crowd it all into the school years?" At another point he maintained that "the doing of a worthwhile job well is just as cultural and refined as the defining of a Greek verb or as the exquisite speaking of the King's English."

Dr. Carpenter unfolded a panorama of educational progress from the Golden Age up to the present and gave his audience a glimpse into the future. The pleasant memory of his able exposition of a vital subject will long remain with the majority of his hearers.—The Hanna Herald.

AND WE SAY SO, TOO!

The fall reason for professional gamblers is reported to be exceeding prosperity in the city of Drumheller. Once again the larks are being felled by the wily card manipulators. Pay checks, which should be used for paying off grocery bills, are finding their way into the pockets of men who are benefitting by the fact that there is another one born every minute.

If we had any assurance that the trusting frequenter of the gambling joints got an even break at the game, we would not be so insistent that the places be closed up. Gambling cannot be stopped merely by closing down a few notorious dens. At the present time, with unemployment relief facing every community we feel that every effort should be made to discourage the innocent victims who obsequiously walk into the unhealthy atmosphere of the gambling joints. We are not making any pious declaration concerning the evils of gambling, but we feel that some measure of restraint should be applied by the authorities in order to save the poor ruts who have not tumbled to the fact that the clubs would not be opened unless they paid good dividends to the owners.—Drumheller Mail.

Safety Fir-r-rat, M.m.

The easterly wind had dried the land, and the crops were suffering from the drought, so the agriculturists of the parish waited on the minister with a request to "put up a word or two for rain."

The minister, who had a reputation for the efficacy of his supplications on previous occasions heard the deputation gravely, and after a silence during which he scanned the horizon, replied: "A well, but A'll bide a wee till the win's mair off the west!"

EXPLANATION OF STAND TAKEN BY OUR M. P.

Nan'lon, Alta. Nov. 8th, 1931

The Editor,

The Blairmore Enterprise.

Dear Sir:

My attention has been drawn to an editorial which appeared some time ago in the Calgary Herald, before my return to Alberta, and headed "Coote adopts peculiar stand." Reference is made to my vote in support of a motion to give six months' hold to Bill No. 3, a measure to amend the Customs Act, and the implication is that I was seeking to prevent the application of anti-dumping regulations in regard to coal.

The Bill to which reference is made gives the Governor in Council power to authorize the Minister of National Revenue to fix the value for duty purposes of any goods imported into Canada. I objected to this Bill (1) because I thought it placed very great and arbitrary powers in the hands of the Minister when to my mind, he had not shown to the Commons any need for such drastic legislation. Further, the fixing of value for duty purposes was in reality a form of taxation and taxing powers, in the past, have always been jealously guarded by the House of Commons. The Governor in Council and the Minister have had the power to fix the value for duty purposes on all Natural Products imported into Canada since the year 1922. Coal is a natural product, so it is quite clear that the Minister has had this power with regard to coal for the last eight years, but if half the reports we hear are true, it has not prevented the dumping of coal into Canada.

I have repeatedly urged the Commissioner of Customs, as well as the Minister, to enforce the anti-dumping regulations in regard to coal, which it was alleged had been sold in Manitoba at dump prices, and at an appropriate time will be glad to discuss this question with any of our constituents in the House and produce the correspondence in connection with the matter.

The only real difficulty I have heard of that was encountered by the customs officials in the endeavor to prevent dumping of coal (in so far as the law was concerned) was in connection with certain large coal companies in the United States that owned selling agencies in Canada. It is alleged that although the coal might be sold to their Canadian agency at a proper price, it was in some cases sold by the Canadian agency to a purchaser in Canada at a price below the duty paid value. Section 6 of Bill No. 4, which was passed at the last session of Parliament gives authority for the levying of dumping duty in such a case.

It would appear that if the law as it now stands is enforced, as I hope it will be, there is very little chance of coal being dumped into Canada. I trust I have made it clear that I was not seeking by my vote or otherwise, to prevent the application of anti-dumping regulations in respect to coal.

H. H. COOTE

NEWS TO US

The following recently appearing in *Colliers Weekly*, tells Canadians something about our Old Age Pensions which most of us did not know: "It's ridiculous not to have old age pensions in the United States. Look at Canada. Their report for 1928 showed that 450 people, American born, who moved over into Canada, are receiving old age pensions there. We've found out that there's an old Japanese man in British Columbia who gets the pension. We've traced down three Syrians and one Turk, a couple of Algerians, a Greek, a Chilean, a Latvian (whatever that is) and 284 Russians who are living on the Canadian pension. You know how the Canadian hated the Germans during the war. Well, there are 178 Germans on Canadian old age pensions today; and 897 Austrians. Altogether there are about 35,000 old folks on the Canadian old age pension rolls.—Ex.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, November 16, the pastor in charge.

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

7:30 p.m.—PUBLIC WORSHIP.

The pastor's subject will be: "Jesus, the Saviour."

Wednesday, 8 p.m., special mid-week prayer meeting.

A week of special evangelical services will be conducted in the church from November 30 to December 5th. Keep these dates open. Rev. Albert Larke, of Culman, will be the preacher.

SALVATION ARMY, COLEMAN

Sunday, 11 a.m.—Holiness meeting; 2 p.m., Directory class for the young people; 2:30 p.m., Company meeting; 7 p.m., Salvation meeting.

A WISE IDEA

The Wainwright Star gives advice to its readers as follows:

Don't be stampeded by high pressure collectors into paying all your money outside your own community and have nothing left for the local merchant and dealer. You might need their assistance before you reap another crop. Remember your own community first; you've got to live here and you owe it to yourself to see that your community does not suffer more than is necessary during times as strenuous as these.

A merchant must satisfy the whole sale houses (and they the manufacturers) before credit is allowed them, there is very little sentiment about bank drafts, they've got to be met. So just as he must meet his obligations so he must look for his accounts to be paid.

From early spring accounts have been mounting up on the assumption that they would be cleaned up in the fall. The fall is here and the expected revenue is proving mighty slim. It will be impossible to pay all debts even though we are told that this district has one of the best crops in the province.

BOSSY COSTS HUNTER PLENTY

It is bad enough to undergo the humiliation of shooting a cow for a deer, but an Ontario hunter had to hand over \$25.00 to the owner of the cow in addition, according to word received by the Canadian National Railways' agent at North Sydney. The son of Nimrod, on hearing a rustle in the underbrush, took deliberate aim and fired. Not waiting for the smoke to clear away, he rushed to the underbrush and found he had shot a cow. Before he had recovered from the shock, the infuriated owner of the animal arrived on the scene and demanded redress. The rifle has been put up for sale.

Definition Wanted

Asked to write an essay on Quakers, a little girl wrote: Quakers are very meek people, who never fight, and never answer back. My father is a Quaker, but my mother is not."

A motorist, calling on an Aberdeen friend who had bought his first car, was surprised to find him emptying the contents of an oil can into his petrol tank.

"What on earth are you doing?" the visitor asked.

"Why," replied the other, "I've ken this car will run only 30 miles on a gallon of petrol, while she'll do about 700 on a gallon of oil!"

Western Canadian cattle almost swept the boards in 16 classes, at the Washington State Fair just concluded at Yakima, Wash., when the Holstein show herd owned by the Canadian Pacific Railway Supply Farm at Strathmore, Alberta, won fourteen first prizes and nine seconds, also taking senior, junior and grand championships in both male and female classes.

A 35½-lb. muskallunge, largest to be taken from the waters of the French River this year, was caught a few days ago by F. R. Spotted, a visitor from Houston, Texas, and was entered in the annual competition for the French River Bungalow Camp Trophy. The monster was landed after a thrilling fight that lasted forty minutes during which it broke water a number of times. When netted it was found to measure 4½ inches in length and 25 inches in girth. A little later the same fisherman caught an 18-pound musky.

Modern developments in railroad traffic leading to heavier trains and increased speed is bringing about a concentrated study of the rail weights, according to Grant Hall, senior vice-president of the Canadian Pacific Railway, interviewed recently. The railway, he stated, has used 100-lb. rails since 1921 and has more than 4,000 miles of this weight of steel, particularly in the heavy travel districts between the larger cities and the Rockies, but the heavier trains made possible by greatly increased engine power have combined to bring up the question of 120-lb. rails which is now being studied and on which a final decision will soon be reached.

The history of the folk song in Canada will be illustrated at the Quebec Festival of French-Canadian Folk-Song and Handicrafts which will be held October 16-18 next with headquarters at the Chateau Frontenac. The Canadian Pacific Railway has again planned a comprehensive series of evening concerts of folk-songs, folk-music, dances, choral arrangements and children's play parties and dances.

All alarmist talk of world over-production of wheat is wholly unwarranted, according to Dr. W. W. Swanson, head of the department of economics at the University of Saskatchewan. Interviewed on board the Empress of Australia on his way to the Imperial Economic Conference, he instanced, in support of his view, the fact that in the midst of the campaign to reduce wheat acreage in the United States, a drought had occurred which had reduced the total yield of cereal crops by more than the average wheat crop of the country.

For the second time in two years the Shagheney Shield, emblematic of the First Aid championship of police forces in Western Canada, has come to rest in Vancouver. It was won by the Canadian Pacific Railway police team of that city, under the leadership of Constable W. E. Darknell.

SPENDING A HUNDRED MILLION

Last year, the Canadian National Railways paid more than \$100,000,000 to Canadian manufacturers and wholesalers for rolling stock, fuel, ties and general materials. As Sir Henry Thornton, chairman and president, has stated on more than one occasion, it is the consistent policy of the system to buy in Canada what ever goods it requires that are made in Canada.

Figures obtained from R. C. Vaughan, vice-president in charge of purchases and stores department, show that the railway spent \$20,116,528 on rolling stock and heavy duty equipment and \$14,000,000 on fuel. These and the \$16,215,870 spent on ties and other forest products were the heaviest purchases. A few figures are illuminating. Rail cost nearly \$7,000,000 and track fastenings more than half that sum. Car parts and fittings, electrical and telegraph material, injectors, superheaters and specialties amounted to more than \$4,000,000. Oils and gasoline made up an item of more than \$2,000,000. Commissary supplies reached the total of \$2,709,132. Steamship supplies cost little short of \$3,000,000. A million dollars was spent on stationery and printing. Of the smaller items these might be listed: bridges and structural steel, \$851,942; air-brake material, \$689,373; bolts and nuts and rivets \$542,676; carpet \$122,025; cement \$212,625; couplers, knuckles and repairs \$385,676; fencing \$122,000; firebrick \$188,272; office furniture \$71,000; gas, oxygen and acetylene \$680,000; ice, hay straw \$385,100; electric lamps \$97,740; machinery and machine tools \$735,000; paints and varnishes \$584,515; roofing \$249,000; rubber and leather goods \$400,000; switch material \$804,183; typewriters and calculating machines \$80,283; uniforms and caps \$243,000; waste \$400,500 wheels, cast iron \$965,000; wire, iron and copper \$915,000; and a multitude of other material including such necessities as axles, castings, forgings, bars, plates and sheets, engines, pneumatic tools, tanks and underframes.

These direct purchases do not begin to represent the Canadian National system as a buyer in Canada. Such projects as the new Montreal terminals, now under way; the Halifax terminals and hotel, recently opened; the Vancouver and Saskatoon and Char-

lottetown hotels, in the process of construction; the station at Hamilton, the new car ferry for the Prince Edward Island service, and other new constructions, extensions and alterations in all sections of the country, from Atlantic to Pacific, represent building and buying in Canada on a large scale. The system's contracts always stipulate that Canadian materials must be used wherever possible. An example might be cited, the Hamilton station, which was built of native Queenstone stone. Eighty-four firms in the city and within a radius of six miles benefited by purchases amounting to \$7,000,000, and 203 firms in Western Ontario participated to the extent of \$1,661,781. Another example of the railway's policy of using local products where it is feasible and so make its contribution to the upbuilding of Canada in more ways than one is the hotel now being erected at Vancouver. "British Columbia stone will be used throughout," said Colonel T. A. Ham, assistant to the president, at Vancouver. "This will be one of the largest contracts ever given to a Canadian quarry." The stone is coming from Iddington Island, 250 miles north of Vancouver. Altogether in the 20-story structure, 130,000 yards will be used. So is Canadian enterprise assisted and Canadian labor given employment. A third example out of the many that might be quoted is the Montreal terminals, one of the largest undertakings ever begun in Canada. In discussing this gigantic development, S. W. Fairweather, director of the Bureau of Economics, said recently: "The Montreal terminal scheme will cost \$50,000,000. In order to visualize a little better just what this \$50,000,000 means, I may say that the terminals will use 56,000 tons of steel, 350,000 barrels of cement and will involve 4,000,000 cubic yards of grading, the re-arranging or construction of 92 miles of track and the ultimate construction of 100,000,000 cubic feet of building space. There will be work afforded to artisans in every grade to the humble laborers and to skilled engineers and architects, nor should it be forgotten that in addition to those directly employed in factory or on the site, the expenditure of wages for the necessities of life will benefit every type of merchant and business men including realtors. I have made a economic analysis of this feat; re-arranging that directly and indirectly

50,000 people will draw their subsistence from the terminal scheme during its construction."

To keep a railway like the Canadian National running and running efficiently from year to year, day in and day out without ceasing, is a task of magnitude in itself, but a railway cannot stand still; as the chairman and president has said, "A railway is never finished," and certainly never when it plays a significant part in a country that does not stand still, that is never finished, that is growing. Every day sees the Canadian National expanding, buying materials, building.

The 1930 programme for new equipment includes 71 locomotives. Eighteen of the Santa Fe type were ordered from the Canadian Locomotive Company; twelve Mountains and five Hudsons from the Montreal Locomotive Works; fifteen switchers have been built or are under construction at the railway shops at Montreal. In addition, seventeen at Transcona three at Moncton and a Mikado at Montreal. The Canadian National Railways and the National Steel Car Corporation are building six six-cylinder oil-electric cars and seven others are being finished from last year's order. Whether in the railway's own shops or in the other plants, these orders are a definite contribution to Canadian industry and to Canadian labor.

The same may be said of the extensive programme of car building. Orders for 4,500 box cars were distributed between three firms, the Canadian Car & Foundry Company, Montreal; the Eastern Car Company, New Glasgow, N.S., and the National Steel Car Corporation, Hamilton. Between these firms were divided six orders for five new dining cars, twelve lounge cars of a special type, twelve sleeping cars with a diversity of types of accommodation, 25 tank cars of 10,000 gallons capacity, five depressed flat cars of 140,000 pound capacity, five baggage cars with the slower system for fruit and vegetables, twenty baggage cars, fifteen express refrigerator cars 50 feet long, 100 freight refrigerator cars and ten snow ploughs. At its shops at Transcona, the railway undertook the construction of 100 freight refrigerator cars and 100 at the London shop. Four first class cars were converted to parlor cars at the Point St. Charles shops; six flat cars are being built into flangers at Moncton and

three others at Point St. Charles and six steel wedge ploughs were undertaken at the Moncton shops.

MISTRESS IN OUR OWN HOUSE?

Under the heading "Closure on Canadian Theatres," a well-known London (Eng.) paper comments thus: "The Canadian theatre is threatened with almost complete destruction by a cinema corporation. Outside Toronto and Montreal, only the 'talkies' are to be permitted. It is an almost incredible situation, and it is difficult to think that Canadians will reconcile themselves to it. But the remedy is not easy." The paragraph refers to the fact that nearly all theatres in Canada "suitable for presentations by travelling companies" are now controlled by the Famous Players Canadian Corporation. According to Saturday Night, the distinguished English companies that have toured Canada and delighted and charmed their audiences during the past season or two, were warned last season that they need not plan to come back. If this is true, and the Toronto paper stated it quite positively, it means that a motion picture corporation has become our dictator, and that people who find pleasure and recreation in the work of these English companies, and other companies of the same sort, are not to be allowed to indulge their taste. They may take what the Famous Players Corporation chooses to give them, or go without. A dictatorship indeed!—A.T.A. Magazine.

HOW TO TREAT YOUR TOWN

Praise it.
Improve it.
Talk about it.
Trade at home.
Be public spirited.
Take a home pride in it.
Tell of its natural advantages.
Remember it is your home.
Tell of its business men.
Trade and induce others to trade here.
When strangers come to town use them well.
Don't call your best citizens frauds and impostors.
Support your local institutions that benefit your town.
Look ahead of self when all the town's to be considered.
Help the public officers to do the most good for the most people.
Don't advertise in the local paper to help the editor but advertise to help yourself.

Believe Hubby (joyously)—Dear, my salary has been raised. Now I want you to go and buy some decent clothes.

She—I won't. I'll get the kind of clothes other women wear.

LEAVE THE LIQUOR ACT ALONE

BEWARE OF THE CAMPAIGN OF MISREPRESENTATION

Beer is a moderate drink. Prohibitionists, in attempting to force their views on the people, try to class it as a heavy alcoholic beverage. IT IS NOT.

The present Liquor Act allows beer to contain up to 4½% alcohol.

Alberta Breweries keep well under this. Their beers range from 3.6% to 4% in alcoholic content.

BEER IS PALATABLE and an EXCEEDINGLY MODERATE DRINK

Compare this with whisky or brandy, ten times the strength of beer. Draw your own conclusions!

DO NOT SIGN THE PROHIBITION PETITION. IT MEANS CANCELING LICENSES OF ALL CLUBS AND BEER ROOMS.

Leave the Act alone. We don't want the bootlegger back again.

Good Hunting in Laurentians

This fine bull moose with 56½-inch spread of antlers was shot in Mount Tremblant Park, Laurentians, about 60 miles east of Mont Laurier, at the end of Canadian Pacific forest, by R. H. Vickery and A. C. Her, Montreal hunters, recently. It came to the call of Gaston Prevost, well-known northern guide who is also fire ranger of the district. When shot, the animal fell into the Cypress River, its

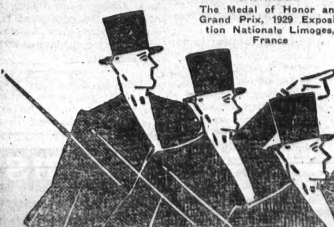

1400-pounds of weight sinking it into the mud. The hunters were forced to improvise a raft of cut logs on which they towed the body to camp. Photographs show close-up of the moose and of the body being towed to camp, the heavily loaded canoe and a snap shot of a passage through shallows. The guide stated that in all his experience he had never seen moose so plentiful in the district.

What Does Your Work Mean To You?

In the current issue of a well known magazine there is an article, bearing the title "Do You Ever Get Off On The Wrong Foot?" which discusses the problems of people who at some stage in their career come to the conclusion that they are square pegs in round holes. In a word, that they do not fit; that they have made a mistake in the choice of their business occupation or professional calling, and, as a result, are not making the progress they feel they should make and their abilities entitle them to make.

On the other hand, a daily newspaper is at present running a series of short sketches of men who in their boyhood or early manhood had ambitions along certain lines, but circumstances, environment, fate, call it what you will, decided otherwise, and instead of being what in those other days they "wanted to be," they have achieved success in radically different walks of life.

In this present period of world-wide depression, a temporary period when we are for the first time feeling and suffering the real aftermath of the Great War, doubtless many people are asking themselves the question: Have I got off on the wrong foot? Am I a square peg in a round hole? Should I make a change, abandon the business, trade or profession in which I am or have been engaged and try something new and different?

Possibly at this time farmers particularly may be inclined to indulge in such questioning as they contemplate the many vicissitudes which agriculture has undergone during the past two years as a result of climatic conditions, marketing difficulties, and a selling price for their products below the actual cost of production. The present outlook may not look promising to them, any more than it does to the city wage-earner. The question, however, which both classes must consider is whether, after all, any change would be better.

For example, if the man engaged in agriculture really likes farming and a rural life, and that degree of independence resulting from the fact that he is his own boss, preferring these to the limitations of a salaried position in town or city, the paid servant of others, and breathing the air of congested centers of population, then he has not made a mistake; he is not a misfit. Nor is the city man in the wrong place if on his part the open-air life and activities of the farm and the less strenuous life of rural communities makes no appeal to him.

Possibly in both city and country, and with men in all occupations and callings in life, some part at least of their dissatisfaction with their own condition is to be found in their failure to fully grasp all the opportunities of their present vocation.

In the magazine article to which reference has already been made, the story is told of a man in middle life who, dissatisfied with his position and the progress he was making, came to the parting of the ways. An orphan, forced to make his way at the age of thirteen, he took a humble position in a food commission warehouse. In course of time he became a salesman, acquired a family and a house worth four thousand dollars, and at forty-two was working long hours every day for forty dollars a week. An opportunity presented itself to become produce manager in a newly organized business at fifty dollars a week, but he was required to invest two thousand in the business. He mortgaged his house to raise the money, and took on the new job. But the promoter of the business was inexperienced, and in ten months it failed, with the result that this man lost his money and ruined his health by worry. He then took stock of "himself." He realized he knew a little about a whole lot of vegetables, but did not know everything there was to know about any one of them. So, on the advice of a friend, this man went back to his old job and worked two years more during which time he made close and expert study of one particular vegetable for which there was an all-year-round demand. He learned where the best varieties were grown, and by whom; refrigerating methods; packing methods; costs; who bought that particular variety of vegetable; ways to use it; everything. Then he launched into business in a rented dark basement dealing exclusively in that one particular vegetable. Today he heads a huge and profitable business and is worth hundreds of thousands of dollars.

The point is just this: Is the dissatisfied agriculturist farming in any old way in haphazard fashion, sowing any kind of seed good and clean or not; using any kind of scrub cattle, indifferent breeds of poultry, or other farm stock? Is the dissatisfied city artisan, or clerk, or business man, just drifting along, doing what comes to his hand, without giving much heed to the method of doing it? Is the carpenter, for instance, content to be merely a "saw and hammer" man instead of studying and striving to become efficient and an expert in his work? Is the merchant plodding along lines of least resistance but making no mental effort to study the requirements of his particular field and the needs, even the fads, of his customers?

In a word, are we treating our present occupations in life merely and solely as a means of physical existence in life, or are we finding some real pleasure and satisfaction in the work itself? If the former is our approach to our work we will, of course, be dissatisfied with it and with ourselves, and ultimate failure must result. If, on the other hand, the work itself means something to us, and we take keen interest in it, study it and its possibilities, constantly strive for its improvement, then satisfaction will result, leading to contentment and a reasonable measure of success.

While there are exceptions to the general rule, the general rule is that it is not so much the nature of the work in which we are engaged that counts, as our attitude towards that work which makes for dissatisfaction and failure on the one hand or satisfaction and ultimate success on the other hand.

The Aeroplane and Geodesy

Problem Of Survey Work In Remote Districts Has Been Solved

The aeroplane has solved one of the problems of the Geodetic Survey of Canada. In those districts which are traversed by neither roads nor railways, travel is slow and at times almost impossible. Obstruction is met everywhere in measuring the points in the great triangulation net which is gradually covering the whole of the Dominion. By means of the aeroplane most of these difficulties have been set aside.

UTTERLY WORN OUT

Women Weakened By Worry

"I don't want to worry, but I can't help it," said a woman recently when told to take things easy and not worry. It is the duty of every woman to save her strength. If she finds herself getting depressed; if she feels utterly worn out; worries over trifles and frequently has nervous headaches, she will be wise to realize her nervous system needs attention.

Starved nerves mean a breakdown. To feed the nerves you must build up the blood. To do this there is nothing so equal Dr. Williams' Pink Pills. These Pills not only enrich the blood but actually create new blood which feeds and strengthens the nerves and banishes the cause of nervous disorders.

Women cannot always rest when they should, but every woman can maintain her strength by the help of Dr. Williams' Pink Pills. Start taking these Pills now and see how soon improvement will show by increased energy, keen appetite, strong, steady nerves and robust health. These Pills are sold by medicine dealers or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Progressive Estevan

Three New Industrial Plants Operated At Recent Ceremony

The town of Estevan on September 24th opened three new industrial plants at a ceremony attended by some 300 leading business and professional men of Western Canada. "The Mercury" in a special issue, notes the recent progress of this town of 3,000 persons, the extent of whose agricultural and mineral wealth is only beginning to be realized. Among other things, it boasts of having the only plant in Canada making stone-grey building brick and of having the largest nurseries in the Dominion.

The man who makes a better job out of the job he has instead of always looking for a better job is the man who succeeds.

Winter Holiday Trips

Canadian Pacific Offers Special Inducements To The Winter Traveller

Ship stimulus to winter travel in Western Canada this year is forecast by Canadian Pacific Railway officials in Winnipeg, chief among the contributing factors being the many special trains arranged to connect with special sailings to the Old Country for Christmas and New Year's. While this rail movement will be easier, there are also some interesting winter features in the west that annually bring thousands of easterners, Canadians and Americans, to the winter playground of the northwest.

The Banff Carnival is now known all over the civilized world, and another western winter sporting event that has become firmly fixed on the calendar is the mid-winter golf tournament, sponsored by the Canadian Pacific Hotels. At Victoria, capital City of British Columbia.

This tournament, started in 1928, enters its third year next February, when, from February 23 to 28, a host of golfers will gather in the Pacific Northwest in quest of the Beatty challenge trophy. The tournament is being held this season at the Oak Bay course of the Victoria Golf Club, while the winter golf is one of the feature attractions of Vancouver Island's evergreen playground.

As a special inducement to winter travellers, low round trip fares have been named by the Company to East, Canada and Central States, commencing December 1st, and to the Pacific Coast during December, January and part of February. These tickets are considerably lower in price than the ordinary fare and bear a much longer limit.

Conquer Asthma. To be relieved from the terrible suffering due to asthma is a great thing, but to be safe-guarded for the future is even better. Not only Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systemic inhaling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

Canadian Trade Office For Egypt

Dominion Has 34 Trade Commissioners In Different Parts Of The World

A new Canadian Government Trade Commissioner's office is to be opened at Cairo, Egypt. The territory for this new office will open sometime next December, includes Egypt, the Sudan, Palestine, Cyprus, Syria, Iraq and Persia. When the Canadian Trade Commissioner is in place over the Sudan, Canada will have 34 trade commissioners in different parts of the world and a commercial agent at Sydney, Australia. These commissioners function under the Commercial Intelligence Service of the Canadian Government Department of Trade and Commerce, which is designed to further the interests of Canadian trade in all parts of the world. The trade commission makes periodical reports upon trade and financial conditions in their respective territories and keeps Canadian manufacturers and others advised concerning opportunities for the sale of Canadian products. Canada's foreign trade in 1929 was \$256 per capita, the highest in the world.

Trying All Ways

Mr. Newlywed: Is the steak ready now, dear?

Mrs. Newlywed: I'm sorry I'm so long, George, but I looked hopeless, grilled, and it doesn't look much better fried, but if you'll be patient a little longer, I'll see what boiling does to it.

Ferrian Balm is inevitably chosen by discerning women. Delightful to use. Subtly fragrant. Cooling and refreshing. Imparts a rare youthful charm to the complexion. Invaluable for softening and making hands flawlessly white. Tones and stimulates the skin. Useful for the family also. Protects the tender skin of the child and is excellent for the father as a hair restorative and cooling shaving lotion.

U.S.A. Manufacturers For Manitoba A special publicity campaign, aiming at the establishment of American manufacturing plants in the Province of Manitoba, is to be launched by the Industrial Development Board of the province.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extirminator.

Population Of Moose Jaw

According to the new Henderson Directory, the population of the City of Moose Jaw is shown as 26,140, or an increase of 3,497 over 1920.

Brain workers live long. Thomas Edison is 83, Sir Oliver Lodge is 79, Bernard Shaw is 74, and other scientists and brain workers are well past the 60-year mark.

Banish pain with Minard's Liniment.

People Need Products

Russia Is Selling

Soviet Tolls That Method To Raise Money For Treasury

Soviet dumping of wheat and other products abroad at a time when the supplies are urgently needed in Russia itself is in the nature of "tax" collection under the Russian system, says the Financial Post, which continues:

"In Soviet Russia, the word taxation has no such meaning as Western minds attach to it. Holding private ownership, to be unethical, the government itself is officially the owner of all property. Consequently, there is none for it to tax. Proclaiming private profits to be opposed to human welfare, it officially permits the accumulation of no incomes which might be taxed. It is obliged, therefore, to obtain its revenue from the actual products of the mines, forests, and farms which it operates or to take as taxes the produce of those who still operate privately—mainly the unorganized peasants. But since it cannot operate a treasury directly with wheat and lumber, it must sell these articles in the outside world.

"This is what it is doing to the extent even of leaving its own people on the verge of starvation. Officially they are permitted to eat only what is distributed to them by the government, and the heavy purchases of machinery abroad mean that the people at home must be kept to the very lowest limit of supplies."

For Dry Skin—Minard's Liniment.

Turner Valley Oil

Seven Thousand Acres Definitely Proved As Large Producer Of Gas And Oil

Following a tour of the Turner Valley oil field, A. Beby Thompson, a member of the British Council of Petroleum Technologists, declared that 7,000 acres of that terrain had been definitely proved as a large producer of gas and oil. Production, since the beginning of drilling operations, amounted to 3,000,000 barrels of a value of \$10,000,000, the present rate of production being about 3,500 barrels per day from about 60 wells.

Old Milestone Found

Supposed To Indicate Distance From Chiappa, Italy, To Rome

Quite recently a most interesting discovery was made in Chiappa, Italy. During excavations there was brought to light an old marble milestone. On the stone could still be distinguished the marking of 583 miles and the name of Augustus Caesar. Presumably the stone indicated the distance from that spot to Rome, and formed part of the old road running between Rome and the Gallic countries, and known then as the Via Aurelia.

Ready-Made Medicine—You need no physician for ordinary ills when you have Dr. Fowler's Extract of Wild Strawberry. For coughs, colds, sore throat, bronchial troubles, it is invaluable. For scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

When everybody is doubtful or scared—the time is the time to buy a home, good goods and sound securities.

Butter can now be made without churning by a centrifugal process.

Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes—
"I am the mother of two children, and would not be without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest were very sick with summer complaint, and there was nothing I tried could equal that remedy, and I had tried most everything, but they could get no relief. Dr. Fowler's made a change in both of them in less than two hours."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

GENUINE INDIAN COATS

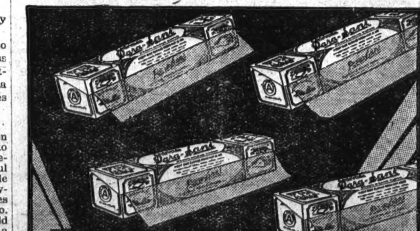

which are at once useful and ornamental. Strongly made of best buckskin, dry tanned and smoked, with voiced seams and fringed shoulders and sleeves. Even the cost is guaranteed to give years of satisfactory wear and this, coupled with the attractive appearance, will win a strong appeal to hunters, trappers and others who require the utmost in wearing quality.

Made by the Chipewyan and Cree Indians here in the foothills, we have a limited number for disposal at the reasonable price of \$14.00 and \$20.00.

COWLEY HAPPENINGS

A whist drive was held in the Ma-
nonie hall on Wednesday evening,
under the auspices of the Cowley
Women's Institute, in aid of the Red
Cross. A good crowd turned out,
when an enjoyable time was spent,
the prizes being won in the following
order: Ladies' first, Mrs. Byers; gent's
first, Wilfrid Fortier, while consola-
tions were awarded to Jesse Snyder
and Mr. O'Dea, who played as a lady.
An appetizing luncheon was served
by the ladies, after which dancing
was indulged in for a time.

Mrs. L. Christies has returned from
a few days' visit to Calgary.
Mr. and Mrs. Archie Swart and
Netta and Gordon spent Thanksgiving
in Lethbridge.

Mr. and Mrs. Ralph Easterbrook,
of Calgary, paid a visit to Mr. and
Mrs. E. Cowin on Thanksgiving Day.
Mr. and Mrs. W. F. Blackburn and
Mr. J. G. Swinney and Miss A. Swin-
ney, of Fishburn, were Thanksgiving
guests of M. A. Murphy and family.
A snow storm from the northeast
fell heavily all day Wednesday in
this district.

Glen B. Werman and daughter Lucy
have come to California to pay a visit
to Glen's parents, who moved to the
south from this district several years
ago.

Mr. and Mrs. J. K. Heatherington
and two sons, Stanley and John; also
Mr. and Mrs. Cecil Easterbrook and
two small children, left by motor on
Tuesday for the coast, where they
will make their future homes.

A truck loaded with 150 boxes of
apples, upset on the Jones' grade, two
and a half miles south of town, on
Wednesday morning of this week,
owing to the blinding snow storm
clouding the windshield, making it
difficult for the driver to follow the
road. A large number of the apple
boxes were smashed, spilling their
contents in the snow. They were
afterwards picked up in sacks and
saved. The truck came out of the
mistake with no serious damage, while
the driver received only a shaking
up.

SHOCKING CRIMES IN UNITED STATES DUE TO PROHIBITION

Montreal, Nov. 5.—Violent shock-
ing crimes committed in the United
States were generally occasioned by
prohibition, and if the country could
abolish the eighteenth amendment it
could abolish the crimes, in the opinion
of Sir Henry Turnbull, K.B.E.,
police commissioner for the city of
London, who arrived here yesterday
after completing a tour of cities in
Canada and the United States. Due
to the Volstead Act he thought that
the problems encountered by the
American police were very difficult.
He felt that the law dealt too kindly
with the gangster in the States.
With regard to the Beames Law of
New York state, which provides that
a man convicted four times should
receive life sentence, he disapproved
of it. He thought that such a restric-
tion placed on the judge, obliging him
to send a man to the penitentiary for
life, irrespective of his offence, could
not be considered just. It was all
right for the law to provide a maxi-
mum sentence, but the minimum
should be left to the magistrate pre-
siding at the trial. He stated that
he was not eager to discuss the meth-
ods necessary to get control of the
situation in the United States.

John—We're going for a nice auto-
mobile ride.

Gladys—No fooling.

John—Well that all depends on
you.

A Scot was engaged in an argu-
ment with a conductor as to whether
the fare was five cents or ten cents.
Finally the disgusted conductor pick-
ed up the Scot's suitcase and tossed
it off the train, just as they
passed over a bridge. It landed with
a splash.

"Mon," screamed Sandy, "isn't it
enough to try and overcharge me, but
now you try to drown my little boy!"

Local and General Items

Miss Madeleine Chardon was
bridge hostess last night at her home
in honor of Miss Faries, of Calgary.

Hartley says that bow legs are a
visitation of Providence, but a derby
hat is a man's own fault.

D. C. McDougall has opened a meat
market in Pincher Creek, under the
style: "Mac's Meat Market."

Ninety-four lives were lost in a
mine explosion at Millfield, Ohio, on
November 5th.

W. H. Chappell, chairman of the
Blairmore Board of School Trustees,
leaves for Edmonton on Sunday
night, where he will attend the an-
nual convention of the Alberta School
Trustees' Association.

The bread-by-law, proposed at
Drumheller, was naturally defeated.
The by-law dealt with our cheapest
commodity of diet and it is a pity
that our public bodies could not di-
vert their energies to wiser avenues.

Every purchaser of 25 or more Per-
sonal Christmas Cards from the office
of The Blairmore Enterprise is en-
titled to a Free Cabinet of fine double
leaf notepaper and envelopes with
their initial steel-die stamped there-
on. See samples.

For the second time this year
Ferne city council has gone on re-
cord as being unable to give any
grant to any denominational school.
The Catholic church applied for a
grant of \$1000 to help carry on its
school, with the understanding that
\$632 of it would come back to the
city in taxes.

We were slightly in error last week
in stating that Dr. Rose was first on
the scene following the C. J. Tomp-
kins accident. Mr. Arthur Harwood
was the first to notice the marooned
car and was trying to extricate Mr.
Tompkins from the car when Dr.
Rose arrived.

Out of \$120 collected in fines during
October by city police, \$115 came to
the municipality, while the remaining
\$5.00, representing fifty per cent of a
fine levied under the vehicles and
highways act, went to the province.
There were twenty prosecutions by
city police during the month.—Drum-
heller Mail.

A good one is told on D. J. Elton,
K.C., of Lethbridge. Recently D. J.
ordered a piece of leather goods from
a point in the United States, on
which he wished to have his name:
"D. J. Elton, K.C., Lethbridge." He
received the article and the inscrip-
tion read: "D. J. Elton, Lethbridge,"
with the Knights of Columbus
emblem.

English Prof.—Correct this sen-
tence: Before any damage could be
done, the fire was put out by the vol-
unteer fire department.

Student—The fire was put out be-
fore any damage could be done by
the volunteer fire department.

Young Blairmore Wife: "How for-
tunate I am in possessing a husband
who always stays at home in the
evening."

Bosom Friend: "Yes, your husband
never was much addicted to plea-
sure."

Requiescat

A farmer was trying to fill out a
claim sheet for damages inflicted by
the railway. His cow had been killed,
and he so entered it on the blank. All
went well until he came to the ques-
tion: Disposition of the carcass?—

He puzzled for a time, then filled
in—"Kind and gentle."

A local Scotchman, requiring a
small bottle and seeing one in Gor-
don's drug store which he thought
would suit him, entered the store and
inquired the price of the bottle.
"Well," said the druggist, "as it is,
it will be five cents; but if you want
anything in it, I won't charge for the
bottle."

"I ken," said the Scotchman, "will
ye put a cork in it, please?"

CORBIN HAPPENINGS

(From Our Own Correspondent)

Mr. E. Linville, of Blairmore, was
a visitor here this week.

Mr. and Mrs. F. Reger were Fernie
visitors on Thursday last.

The mines' electrician, Victor Greg-
or, who has been convalescing in the
Ferne hospital for the last few
weeks, has returned to his home here.

A surprise party was held in the
Oddfellows' hall on Wednesday even-
ing, in honor of Charlie Joyce, who
celebrated his twenty-first birthday.

The members of the Rebokeh lodge
held a bridge party and tea on Thurs-
day afternoon at the lodge hall.

Mr. and Mrs. A. Williams are to be
congratulated upon the birth of a
daughter on Thursday, November 6.
Mr. and Mrs. W. Almond and Mr.
and Mrs. D. Waddington spent

Thanksgiving day at Lundbreck.

The marriage of Miss Coates and
Mr. John Jackson was solemnized on
Saturday. The young couple will re-
side in Corbin.

Mr. and Mrs. C. P. Shaw and
daughter Joan took advantage of the
Thanksgiving holiday and motored
to Calgary over the week end.

Mr. A. Denmore, of Lundbreck,
was a business visitor to Corbin this
week.

The high school students spending
their Thanksgiving holidays here
were: May Parsons, Bubbie Elliott,
Tommy Ferryman and Billy Warabee.

The marriage of Mr. Barney Lyne
and Miss Eva Baird took place at
Michel on Thanksgiving day. Barney
is bringing his bride to Corbin, where
they will reside.

I don't see why jokes about our
race being so close are continually
being published," remarked a young
Scotchman. "We are not close, just
thirty."

"I think it's a shame," agreed the
Irishman with whom he was walking.
They proceeded in silence until
they came to a totaconist's.

"Come in and have a cigar," invited
the Irishman.

They stepped inside. The Irishman
put his hand in his pocket, then
withdrew it with an exclamation.

"By jove," said he, "I left my
money at home."

"Well, the day's young," com-
mented the Scot. "I don't mind walk-
ing back with you to get it."

LOOK AHEAD...

LIFE is at its noon tide now.

Youth and vigor, the ability to earn and the freedom to spend
—all are yours now.

Evening follows noonday.

Will the evening of your life be
happy and peaceful?

Will you be assured of all the
comforts and some of the luxu-
ries then?

You will if you LOOK AHEAD
and PLAN.

The little that you will scarcely
miss now, invested in the Sun
Life Policy best suited to your
requirements, will bring you
splendid returns when your ear-
ning days are over. And in the
meantime, those dear to you will
be fully protected.

Talk over your assurance problems with a Sun Life man.

Brocky Family Goes to Germany

Canadian Pacific Express men were hosts to Patsy, Mabel, Chester
and Sherrie Brocky, of Badgerville, Subterranean, who spent a week
in Montreal recently before sailing to Europe.

The four Brockys sailed for Hamburg on board the SS. Beaverford,
October 31, and will settle in Germany, where their
children will probably be used to lather the faces of
customers in Teutonic shaving emporia.

The ladies are good Canadians, raised in Alberta
and consigned from Edmonton to Gittide-Harz,
Germany, for breeding. One and a half pounds of
steak twice a day, at lunch and dinner, keep them
alive and happy, and doubtless contributed to
their enjoyment of the long journey on the Canadian
Pacific Railway from Edmonton to Montreal.
Breakfast is now quite declassified in the best
ladies' circles.

The above photograph shows Patsy
receiving the first instalment of her
lunch before being taken by the C.P.R.
Express truck to embark on the
Beaverford. "What do you want
with me?" says Mabel, as she was
being sketched. "I've had my lunch
and feel fine; sitting pretty, in
fact. Nothing more for publication,
this is the end of my tale..."

What Have You Learned About Life?

A world-wide organization of men recently conducted a contest, requesting letters on the subject: "What Have I Learned About Life?" Numerous replies were received, and the writer of this column feels that he cannot do better this week than pass on one of the prize winning essays. It is brief, and to the point, and reads:

"I used to drive my father's car on the country roads. While bouncing along over the rough ruts on the right side, the left part of the road always appeared more inviting; but once on that side I inevitably found it just as rough or worse.

This is the first lesson I have learned about the roadway of life. The other side is deceiving. The boy longs to be a man, and the old man glorifies the golden days of his youth. The poor yearn to be rich, while a larger income consistently calls for more expense. But the successes and gains of life are not in the future or the past, nor in the other man's back yard. They lie within our own reach at the present time and in the present conditions. Life has lined us up for an even start.

The second thing I have learned about life is that God hasn't finished the job. We rejoice in the accomplishments of science, religion and social relationships, but yet in the crowded ways of life we find vile strife, unbrotherliness, political corruption and the curse of a maladjusted industrial order. Civilization is in its infancy, and its growth will depend on us of the present generation. There are still new worlds for men to conquer.

It doesn't take long for one to learn that there is no getting by in the long run of life. Being born into the world with this or that fortune or pedigree does not guarantee that one shall have a sturdy character and a personality that shines like the morning sun. Regardless of where a man starts in life those things of lasting value, education, religion, business power, a strong and virile physique and a happy home life are obtained only by long hours of patient and arduous toil and self-discipline which alone are the harbingers of a radiant and masterful personality. There are no sales and charge accounts in the market places of life. The price of the best is constant.

Finally I have learned that there is enough happiness in life to go around. No man is cut off from his heritage of happiness even though it be interspersed with hardships and sorrows. To be able to see the vision of life's task in spite of the cramped quarters of a small job; to find outlet of soul and character in stooping to help a brother while persecuted by others; to rejoice in the exaltation of personality while whirled in the wheels of industrialism; and to be happy in a great and thrilling quest with the fresh dawn of each immortal day—this is the major lesson of life.

Shipping Asbestos to Japan

About Eighty Per Cent. Used In Produced In Canada

"The market in Japan for asbestos in lump, powder and fibre, as well as in packing and other forms is increasing year by year owing to the expansion of industrial plants using this material and to the great variety of uses to which asbestos products are being put in everyday life," according to James A. Langley, commercial secretary to the Canadian Legation at Tokyo, Japan, in an article in the October issue of the Commercial Intelligence Journal.

About 80 per cent. of the asbestos used in Japan comes directly from Canada, a small percentage from Russia and the balance through one or two English concerns interested

in the African asbestos deposits. The demand for asbestos powder and fibre runs at about 12,000 tons.

Will Teach First Aid

Art To Be Taught At Balfour Technical School In Regina

The art of first aid is to be taught in specially established classes at Balfour Technical School in Regina. The school is co-operating in this work with the St. John Ambulance Association and a statement issued at Ottawa by the association said this new departure illustrated the increased recognition being given the necessity for knowledge of first aid in industry.

The step is being taken by Balfour school with a view to enabling employers in Saskatchewan to comply with the regulations of the Workmen's Compensation Board which requires that employers having 25 or more persons on their pay rolls maintain a first aid room in charge of a competent student of the art.

Making Trial Shipment Of Western Cattle

Prominent Ranchers Send High Class Animals To Old Country

Jack Byers, Sr., livestock promoter, attached to the Dominion Department of Agriculture, has taken a trainload of range steers, two, three and four years old which were contributed by a number of prominent ranchers of Saskatchewan and Alberta, as a trial shipment of high-class cattle to the Old Country markets.

The shipment is being supervised by the Federal Department of Agriculture from loading to market. Mr. Byers sailed from Montreal to Manchester on October 30.

Veteran Government Worker

Walter Todd Has Served In Civil Service For More Than Half a Century

Walter Todd, for more than half a century clerk of committees and private bills for the House of Commons, died at Ottawa recently in his 74th year. His illness had been of brief duration.

The 57 years Mr. Todd spent as a government worker made him, in point of continuing service, one of the oldest members of the civil service. He succeeded his father to the position of clerk of committees in 1874.

In addition to the coincidences that father and son gave many years to the same post in the service of their country, one other peculiar incident stood out similarly in both their lives. In 1846 when the Parliament buildings, then situated in Montreal, were fired by an angry mob during the agitation which followed introduction of the Rebellion Losses Bill, Mr. Todd's father cut the same portrait of Queen Victoria from its frame while the structure about him was in flames.

In 1916 when the Parliament buildings at Ottawa again went up in flames, Walter Todd cut the same portrait of her late majesty from its frame and once again the canvas was saved by a Todd.

Newspaper Convention

Provincial Meeting In R.C. Of Journalists On Daily and Weekly Publications

A provincial convention of the men and women who are engaged in the editorial departments of the daily and weekly press of British Columbia, the first of its kind in Canada, is planned for a late week-end in February, preliminary arrangements having been made at a meeting of the general executive committee of the B.C. Institute of Journalists, held in Vancouver.

The convention will coincide with the annual dinner of the Vancouver branch, which will act as host to the out of town members who are expected to assemble from all parts of the province.

Woman's Fortitude

Forces Herself To Smile Through Pain

"I never seem to find time to rest," says under an overworked housewife. Under smiles and forced cheerfulness she conceals weariness, a strong depression; headaches and backaches. Often she is in real pain, but still refuses to give up. That fortitude is apt to be her undoing. If she continues to neglect the signals of distress she will sooner or later suffer a serious breakdown.

A noted doctor has stated that nine-tenths of the ills of womanhood are the cause of poor blood. That anaemia, the cause of the low spirits, the poor appetite and palpitation that make life a burden for so many. There is no need, however, for women to suffer in this way. All the miseries of anaemia can be banished by taking Dr. Williams' Pink Pills. These Pills carry an abundance of new, rich red blood and this new blood will bring strength and vitality to nervous, overworked women. The Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Industry May Develop

Horse meat has never been considered a delicacy among Canadians, but frequent inquiries have come from Europe as to Canada's ability to provide such food. Already a temporary abattoir has been provided in Calgary. If the demand, which comes from Rotterdam, continues it is expected that permanent plants will be built and an effort made to completely supply it.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthful operation of the digestive processes. As a vermifuge it can be relied on for its effectiveness.

Before a man can wake up and find himself famous he must first wake up and find himself.

Chest Colds

Minard's Liniment is recommended in cases of bronchial irregularity. Rub it on the affected parts, or inhale it as necessary.

**MINARD'S
"KING OF PAIN"
LINIMENT**

Write for this mark on every tin. It is our guarantee that Magic Baking Powder does not contain alum or any harmful ingredient.

Would Cancel War Debts

President Beatty Of The C.P.R. Tells People Of U.S. That Cancellation Would Bring Back Prosperity

"It is not for me or any other citizen of the British Empire to discuss either publicly or privately the propriety or otherwise of war debt cancellations," E. W. Beatty, K.C., president of the Canadian Pacific Railway Company, said in a speech at Pinehurst, N.C. "But it is not surprising that men of great vision in the United States have reached the conclusion that if they were removed, industry would be stimulated, trade would expand and prosperity would return."

The railway president was addressing a banquet of the eighth annual convention of the American Institute of Steel Construction. He surveyed the amity existing between the United States and Canada, outlined the importance of railroading to the two countries and spoke of business depression and the reason for that situation in Canada. The interruption to the marketing of Canadian grain; the direct and indirect results of the stock market collapse of last fall and the somewhat unsatisfactory present conditions respecting the newsprint industry, were the principal contributing causes to Canada's present depression, Mr. Beatty felt.

The United States Mr. Beatty said, had reached a population of 75,000,000 before its export business equalled the amount of that of Canada in 1927. "It speaks well for a country's progress when with less than 170,000,000 people it can produce this result," he said.

Alberta Gas Contains

Very Little Helium

Report States Extraction Is Not Considered Economically Feasible

Alberta gas contains an element of helium but evidently not of such quantity as would make its extraction economically feasible it has been stated at the Interior Department.

About 1917, during the war, some interesting experiments were conducted at Calgary by Prof. J. C. McLennan, of Toronto University. It was found that whereas, in the Texas gas, there is a content of 3 per cent. helium, the Alberta content did not exceed a third of that figure. No commercial helium was extracted at all.

The problem was one of economic feasibility, and as stated this was not demonstrated. Soon afterwards the war closed and the experiments ceased though the results were made available to the research council, and to some extent the possible developments are still being explored.

Uses Of Volcanic Dust

Volcanic dust is mainly used in the manufacture of cleansers, scouring powders, and abrasive soap, but lately, outside Canada, there has been an increasing demand for its use as an admixture in cement and plaster. Volcanic dust beds up to thirty feet thick are being worked near Swift Current, Saskatchewan. There are other beds in British Columbia.

Should Be Satisfied

A busy old woman inquired of a black porter the time of the train to Chicago. She then went to a white man and asked him. The negro went to the white man afterwards, and said with a smile, "Perhaps she will believe it now she has got it in black and white."

The finest diamonds come from the neighborhood of fresh-water rivers.

Dairy Production Increases

Increasing Demand For Dairy Stock In Prairie Provinces

"Statistics of dairy production at the present time indicate that there is an appreciable increase in milk and cream production all over Canada at the present time," observes Dr. J. A. Ruddick, Dairy Commissioner of the Dominion Department of Agriculture. With respect to butter production Ontario and Alberta show a 15 per cent. increase for the first six months of the production year. Cheese production, of which 97 per cent. is centered in Ontario and Quebec, was 30,000 boxes behind last year as at October 31. One of the interesting features in the dairy industry at the present time is the increasing demand for dairy stock in the Prairie Provinces.

Two Sections In Grain Show

Growers should bear in mind that there are really two sections in the wheat classes of the World's Grain Show, Regina, in 1932. One section of five classes, calls for an exhibit of fifty pounds, the other for an exhibit of ten bushels. The smaller exhibit will, of course, admit of much more careful selection than will the larger. The ten-bushel sample may be prepared with cleaning machine, but this should be done very thoroughly.

Postage Stamp Changes

New Color To Be Adopted In Printing New Issue

Full styles in postage stamps will show a radical change in color scheme. Within a month, or sooner, if prearrangements are completed, a new issue of stamps up to the eight cent denomination will be released by Canada's Post Office Department. Basic colors will be changed in conformity with regulations of the Universal Postal Union, of which Canada is a member.

The one cent stamp will change its "dress" from orange to green; the two cent stamp will be red in place of green as at present; the mauve five cent stamp will make way for one of blue and the eight cent postal carrier will give up its blue color for a modish orange.

New System Of Lighting

Dunmire or imitation "windows" are providing a superior kind of illumination for new office buildings in London, England. Concealed electric bulbs that simulate daylight are in the windows, which are constructed so as to resemble real windows in size and shape. Tests have proved that the work is easier under this light than in the light provided by the customary indirect glow from overhead bowls.

Felt Tired Out All Day

Could Not Sleep at Night

Mrs. Aldamond Lalonde, 2481 St. James St., Montreal, Que., writes:—"After a spell of the gripe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everyone."

W. N. U. 1563

EXPENDITURES FOR RELIEF ARE GIVEN APPROVAL

Ottawa, Ont.—Expenditures totaling more than \$37,000,000 for public works and undertakings throughout the Dominion, to relieve unemployment, have been given final approval. Announcement to this effect was made by Hon. Gideon D. Robertson, Minister of Labor.

Work proposals put forward by various municipalities and provinces, which the Dominion Government has endorsed, aggregate approximately \$14,000,000. A number of these undertakings are already under way. Construction and improvement programs for the Canadian Pacific and Canadian National Railways total \$22,658,650. Expenditure through the grade crossing fund is authorized to the amount of \$500,000.

Expenditures approved for the different provinces are as follows:

Ontario	\$10,069,667
British Columbia	1,657,850
Saskatchewan	292,500
New Brunswick	406,300
Manitoba	254,675
Prince Edward Island	150,000
Nova Scotia	109,100
Yukon	5,000
C. P. R.	11,514,000
C. N. R. (Approx.)	11,139,650
Grade Crossing Fund	500,000
Total	\$37,128,842

Proposed works and undertakings for Quebec and Alberta, with estimated expenditures, are expected to be received from these provinces and their municipalities shortly, Senator Robertson declared.

Upon their receipt they will be placed before cabinet council for approval as has been done in the case of other provinces. Other proposed expenditures in Ontario, British Columbia, Saskatchewan, New Brunswick, Manitoba, Prince Edward Island, Nova Scotia and the Yukon Territory will be submitted from time to time for Dominion approval, and announcement of these undertakings will follow.

"The prime minister's promise to the Canadian people that prompt action to relieve unemployment would follow the general election in July has been kept," said Senator Robertson. "The minister expressed warm appreciation of the manner in which all interested had heartily co-operated in hastening the creation of employment opportunities as rapidly as could reasonably be expected."

"Steps are being taken," Senator Robertson stated, "to encourage employers to make use of the employment service offices so that unemployed workmen registered therein may be promptly made available for and acquainted with work going forward. A complete list of localities to the extent of expenditures for relief works throughout in every part of Canada will be given to the public press from time to time so that the public and particularly unemployed men will have knowledge of where and when opportunities may be found. In every agreement with every province the Federal Government's fair wage and eight-hour day policies have been inserted, so that exploitation of labor through working unnecessarily long hours is prevented and the maintenance of current reasonable rates are provided for."

Wheat Shows High Protein
Calgary, Alberta.—The earlier threshed grain from the southern part of Alberta showed remarkably high protein, according to tests made from many points, it is reported by the Alberta Wheat Pool. Samples for Hesketh and Idleleigh showed a protein content of 16 per cent, while many other points supplied samples of wheat which tested from 15 to 16 protein content.

Pays Tribute To Grenfell

London, England.—The Prince of Wales paid a tribute to the work of Sir Wilfred Grenfell in a letter which was read by the Lord Mayor of London recently at a meeting of the Grenfell Association. The letter read: "There is no doubt that Sir Wilfred is carrying on splendid work in a territory rapidly becoming an economic unit of great potential value to Newfoundland and the Empire."

Manitoba Birds For Eastern Show
Brandon, Man.—A poultry exhibit of considerable size will be sent to the Toronto Royal Show this month by the province of Manitoba. John Windover of this city stated that more than 50 birds would be shipped east and that turkey will comprise a large portion of the exhibit.

Freemen Of City Of London

Prime Ministers Of Canada, Australia and New Zealand Are Honored
London, England.—In the old Guildhall, with its five centuries of stirring history, the Prime Ministers of Canada, Australia and New Zealand became freemen of the City of London. Premiers R. B. Bennett, J. H. Scullin, and G. W. Forbes, were declared in the ancient formula to be "men of good name and fame."

"They do not desire the freedom of the city whereby they will defraud the King or this city of any of its rights, customs and privileges," as ran the declaration of the compurgators, "they will pay their scot, bear their lot, and so they all say."

Sir Adrian Pollock, city chamberlain, introduced the new freemen. He said Premier R. B. Bennett "has not belied his reputation for plain speaking and anxiety to get things done, which admirable attributes are the more conspicuous on account of his well-known hereditary and passionate loyalty to the Empire."

Premier Bennett declared he felt the honor was conferred not upon himself personally, but as an honor to the Dominion of Canada. "I shall tell my fellow-Canadians, when I return, of the high regard you hold for them in this old city and of the deep concern you manifest in their progress and prosperity," Premier Bennett said.

Premier Bennett referred to the Imperial Conference. "Of this great conference in which we are now engaged," he continued, "it can only say that every delegate, whether from the homeland or the overseas dominions, is actuated by an earnest desire to promote the well-being and prosperity of this great empire, this commonwealth of nations of which we are trustees."

Not Exempt From Taxation

C.N.R. Pays Over Eighteen Million In Three Years

Toronto, Ont.—Replying to the statement that the Canadian National Railway fed on the public exchequer and was exempt from taxation, Senator Robertson declared that the president of the system, told members of the Toronto Board of Trade Club, that from 1926 to 1929 the railway had paid in federal, provincial and municipal taxes \$18,709,000. This amount, he said, was only \$9,000,000 less than paid out by the Canadian Pacific Railway.

The \$9,000,000 less can be explained by the fact that Maritime railways are under a different arrangement.

Carried Out Father's Wish

Kingsford-Smith Scatters Ashes Of His Father Over Waters Of Pacific

Sydney, N.S.W.—Wing Commander Charles Kingsford-Smith, using the aeroplane in which he made his last memorable flight from England to Australia, scattered the ashes of his father over the waters of the Pacific Ocean, which had witnessed his first notable triumph in the air.

On his death bed, William Kingsford-Smith, father of the aviator, expressed a wish that his ashes be cast to the winds over the Pacific, and his famous son thus performed his last duty to his dead sire. The elder Kingsford-Smith died November 2.

Shock Causes Death

Southsea, England.—Major David Thomson, 68, only brother of Lord Thomson, the air minister who lost his life in the R-101 disaster, died November 2. Physicians attributed his death to shock as a result of the tragedy.

May Visit French Capital

London, England.—Premier R. B. Bennett, of Canada, will probably visit Paris, after the Imperial Conference has concluded, to discuss trade matters with the French government.

Labor Secures Majority

Premier Ramsay MacDonald Wins Through First Division
London, England.—A majority of only 51 votes carried the Labor Government of Premier Ramsay MacDonald safely through the first important division of the current parliamentary session.

This was regarded a crucial test, for the balloting was only on a motion by the Conservative party to amend the Speech in reply to the Address from the Throne. The amendment was defeated by 281 votes to 250.

The Speech from the Throne has been under bitter attack for two days, the Conservatives regretting the failure of the Laborites to propose any adequate measures to deal with the crisis in the industrial, agricultural and commercial fields or to check the growth of unemployment.

Liberals decided to abstain from voting on the amendment. As a matter of fact, five Liberals, including Sir John Simon, voted against the government, but they were almost counter-balanced by four members of the same party who stood by the administration.

The left wing Laborites stood by Premier MacDonald.

DOMINION-WIDE AIR SERVICE TO BE INAUGURATED

Winnipeg, Man.—Negotiations are nearing completion for the formation of the Dominion-wide air service, in which the Canadian National and Canadian Pacific Railways will partner, according to word received here recently. Preliminary plans for an all-Canada service were discussed some months ago, and since that time negotiations, now nearing completion, have been under way with the railways and eastern aerial companies.

James A. Richardson, of Winnipeg, financier, and president of the Western Canada Airways, who will be the majority stockholder in the organization, to be known as the Aviation Corporation of Canada, is at present in the east completing negotiations for the new air development.

The Aviation Corporation of Canada will have under its control the Western Canada Airways, the Canadian Transcontinental Airways, the Canadian Airways and other companies, providing an air service from coast to coast. The railways will both be financially interested in the organization, which, it is stated, has the sanction of the Federal Government, although it will have no financial stake in the concern.

Development of train and air schedules to provide speedy transcontinental service across the Dominion is forecast.

There will be no public financing of the corporation in the immediate future, it is understood.

Franco-Italian Naval Difference

United States Ambassador Is Optimistic After Conference With Italy

Rome, Italy.—Hugh S. Gibson, United States ambassador to Belgium, has returned to Geneva apparently optimistic after a series of conferences with Italian government heads looking toward a settlement of the Franco-Italian naval difference.

He did not talk for publication about his conversations with Premier Mussolini and Foreign Minister Grandi, but he left behind an impression that negotiations between France and Italy will be undertaken at the League of Nations preparatory disarmament commission sessions with more likelihood of success than would have been the case before his visit to Rome.

BOUND FOR EASTERN TRADE

Aviator Receives Decoration

Copenhagen, Denmark.—Captain Wolfgang Von Gronau, the German trans-Atlantic flyer, received from King Christian a decoration in recognition of his crossing the Atlantic to New York by way of Greenland. The flyer said the route will be the main highway of trans-Atlantic traffic in the future.

Wheat Expert

DR. W. W. SWANSON

Professor of Economics, University of Saskatchewan, Saskatoon, who is at present in London with the Canadian delegation attending the Imperial Economic Conference.

An outstanding authority on wheat, Professor Swanson is pursuing the difficult problems involved in the marketing of Canada's crops, concerning which so many despatches have been cabled to Canadian newspapers.

Helium Gas For Airships

Dr. Hugo Eckener Will Use Helium Gas and Create Oil Motors in New Zeppelin

Berlin, Germany.—Dr. Hugo Eckener surprised the annual dinner of the American Chamber of Commerce here by announcing that as a result of the recent disaster to the British dirigible R-101 he had changed the plans for Zeppelin now under construction so as to provide for helium gas and crude oil motors.

He said he had received word from the United States that helium gas, which is non-inflammable and non-explosive, would be available to inflate his airships in whatever quantities desired.

Dr. Eckener, who is world famous as commander of the Great Zeppelin, declared that it had not been for an explosion the crash of the R-101 in France several weeks ago would have resulted in minimum damages. As it was the great airship nearly to almost nothing and 48 British lives were lost.

Dr. Eckener, who is world famous as commander of the Great Zeppelin, declared that it had not been for an explosion the crash of the R-101 in France several weeks ago would have resulted in minimum damages. As it was the great airship nearly to almost nothing and 48 British lives were lost.

Brazil Establishes Provisional Government

Reforms and Democratic Elections Promised By Brazilians

Rio De Janeiro.—The Brazilian Government, of which Dr. Getulio Vargas has become the head as the victor in a brief revolution, plans to step out as soon as it has effected reforms and democratic elections will then be conducted.

This was the assurance of Dr. Osvaldo Aranha, associate of Vargas and just named Minister of the Interior and Justice in the temporary government, who told the Associated Press that the new administration will represent the will of the Brazilian people.

"We have established a provisional government similar to that when the republic was proclaimed in 1889," he continued. "We shall shape our programme with the idea of making a real representative government and bringing honest administration into all departments."

Earnings Forty Millions Less

C.N.R. Has Deficit This Year Of Ten Millions

Toronto, Ont.—Gross earnings of the Canadian National Railways system will be \$40,000,000 less this year than in 1929, but drastic economies in all departments of operation and a view of the future will offset this to the extent of about \$30,000,000, it was revealed here by Sir Henry Thornton, president of the system.

The large savings effected, he indicated, were largely achieved by putting off expenditures on work and new operations not immediately essential.

While no improvement or indication of immediate improvement in C.N.R. earnings was visible, Sir Henry was encouraged at what he thought was a "better feeling" by most people and business men. The extreme and unwarranted pessimism induced by the depression, he thought, was passing rapidly, which was a good sign.

NATIONAL FARM POLICY MAY NOW BE FORMULATED

Ottawa, Ont.—New departures in Canadian methods of agriculture are expected to develop from a conference to be held here November 17 and 18 between Hon. Robert Weir, Minister of Agriculture, and Ministers of Agriculture of the various provinces.

The conference has been called in the hope of formulating a national agricultural policy.

Not only will the views of the provincial ministers be presented at the conference, but suggestions from the various agricultural colleges will also be put forward. Major Weir has already been in communication with deans of colleges throughout Canada, inviting them to express their opinions.

The discouragement suffered by farmers in attempting to market their crops at profitable prices has confirmed the minister in his determination to evolve an effective national agricultural policy, according to department officials. While the most crucial phases of the problem are present in the western provinces, the conference will not concentrate on the wheat situation alone, it is understood, but will endeavor to bring forth a policy of benefit to the country as a whole.

Major Weir has not made an expression of his own views, but is believed to favor a gradual increase in cattle-raising in the western provinces.

MIGHT WEAKEN ONE OF THE FEW LINKS OF EMPIRE

London, England.—The Times recently discussed appointment of governors-general, one of the matters which has received consideration of the Imperial Conference, and concluded that one of the few remaining formal links binding the Empire would be severed or at least weakened, if governors-general were to become merely nominees of the reigning governments in the dominions.

"It is not easy to see how such a nominee could adequately discharge the function of the office as set forth in the report of the 1928 Imperial Conference," the Times said. "Nothing could be more erroneous than the apparent impression is some dominions that the governor-general is merely a lay figure. If the governor-general is to represent His Majesty adequately, then His Majesty's part in the appointment must be real and not merely nominal. This is all the more necessary since the governor-general is now exclusively the representative of His Majesty."

"At the same time it does not follow that a dominion government should surrender the voice in selection which they have had for a good many years."

Concerning the discussion on whether a governor-general should be a citizen of the dominion in which he holds highest office, the Times said it did not see why any class should be ruled out from the area of choice. But other things being equal, a governor-general would find it easier to discharge his duties if he came from another part of the Empire, free from local associations and prepossessions.

The whole matter, concluded the Times, is one for informal consultation and general agreement, not for any pedantic formula.

Grade Crossing Fund

Half a Million Dollars Are Appropriated For This Purpose

Ottawa, Ont.—Transfer of \$500,000 from the government unemployment fund to the grade crossing fund has been authorized by order-in-council. The latter fund is administered by the Railway Commission. The transfer is made by the government with a view of assisting in projects for establishment of necessary grade crossings at a time when employment is urgently needed.

The government makes a regular annual contribution to the grade crossing fund, but the amount transferred is in addition to that annual grant.

Will Investigate Deportations

All Future Cases Will Be Carefully Considered On Merits

Blind River, Ont.—Further deportations to their native lands of patients confined to mental institutions in the province will not be authorized unless every case has been carefully considered on its merits and passed upon following a thorough examination by a competent physician.

This policy will be followed by the Ontario Government in dealing with such cases in future, according to Hon. J. M. Robb, provincial minister of health, in discussing the cases of three women recently to come under the deportation order.

Alberta Cattle For Britain

Second Consignment Has Been Shipped From Calgary To Manchester, England

Calgary, Alberta.—A shipment of two, three and four-year-old steers, numbering 205 head, have left here for Montreal, from which point they are billed for Manchester, England. The consignment, second of its kind to leave the west during the past few weeks, was collected and is being shipped under supervision of the Dominion Department of Agriculture. It will serve to further prove the possibilities of the British market for western ranchers.

Section Foreman Awarded Prize

Winnipeg, Man.—E. Swanson, section foreman in charge of one of the British Columbia boundary subdivisions at Rhinot, B.C., has been awarded the prize donated by W. M. Neal, Winnipeg, general manager western line Canadian Pacific Railway, for the best maintained section of track on the company's western lines during 1930.

Shanghai, China, plans to spend nearly \$4,000,000 on new municipal buildings.

Two trucks of shortboard and more coming up to complete the carload which left Winnipeg for Toronto's Christmas trade. It required 843 cases, 12,900 toothsome cakes, to fill the car with the western manufactured product bound for eastern trade—a special order completed this month.

A fairly good one is told of Yonson, who on entering the Greyhound bus at Coleman a few days ago immediately started to divest himself of his wearing apparel, thinking he was at home in his shack. Horrified passengers jumped through the windows, till very soon the coach was carrying only the chauffeur.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 28th December, 1930, for the conveyance of His Majesty's Mails, on a proposed Contract for a period not exceeding four years, twelve times per week on the route Hillcrest Mines and Canadian Pacific Railway Station, from the 1st April next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Hillcrest Mines and at the office of the District Superintendent of Postal Services.

J. B. CORLEY,
District Superintendent of

District Superintendent's Office, Calgary, Alberta, Nov. 12, 1930. [n13-3]

Geo. Sangster flew to Calgary on Saturday last on one wing.

Al. Plunkett with his Dumbells are now in Calgary in their latest revue, "Come Eleven."

Miss Blanche Lebel, of Pincher Creek, is visiting with Mrs. Dutil here this week.

Have no worry over your Christmas presents. Procure them early at St. Anne's Bazaar, Saturday, November 16.

Solloway and Mills have entered the Lethbridge jail, where they will serve four months and one month, respectively.

St. Anne's Catholic church bazaar, Saturday, November 15. Fish pond, tables of fancy work, embroidery, cut work, novelties, home cooking, candy, etc. Evening attraction for all, 8 to 12 o'clock.

The heavy snow of the past two days has almost completely demoralized motor traffic through The Pass, and the big Greyhound buses are having great difficulty negotiating a way through.

Local and General Items

Meet your friends at St. Anne's Bazaar, Saturday, November 15.

Miss Isobel Rae is a holiday visitor here with her parents and sister Violet.

Dr. and Mrs. J. S. Hynes were in town from Claresholm on Thanksgiving Day.

Joseph Tompkins came down from Calgary last week end, to be present during the illness of his brother, C. J. Tompkins.

The Blaimore Players will distribute "Tons of Money" at 8.15 p.m., Wednesday, November 20th, at the Opera House.

Fishing licenses not required for fish pond on Saturday. A catch guaranteed at every cast—St. Anne's Bazaar.

Miss Marie Biron, who recently underwent an operation for appendicitis in St. Vincent's hospital, Pincher Creek, is progressing favorably.

A public office building is to be erected at once at Drumheller, for which the federal government has allotted about \$30,000.

Real fish. Try and catch them. Big prizes if you do. Try your luck at "Ye olde Fish Pond," Saturday—St. Anne's Bazaar.

Mr. and Mrs. F. Antrobus and daughter Freda, accompanied by Mrs. P. Chardon, were motor visitors to Calgary over the week end.

The Rank of Esquire will be conferred on a class of six candidates at the regular convention of Turtle Mountain Lodge, Knights of Pythias at Hillcrest on Tuesday night next.

Dr. Merritt was called in from Calgary during the week to consult Drs. Gordon and Stewart re condition of Mr. C. J. Tompkins, whose progress following the accident of a week ago has been but slow.

The Hillcrest Caledonian Society will stage a grand St. Andrew's concert in the Union Hall on the night of Friday, November 28th. Assisting will be Miss Tina Thomson, of Fernie, and other well known artists.

Newfoundlanders residing in Calgary and surrounding points are invited to meet at the home of Mr. and Mrs. James Burrage, 1148 Westmount, boulevard, on tomorrow, Friday evening, November 14, to consider plans for an active season to be enjoyed by all former residents of the island.

Robert Livett has been re-elected president of District 18 of the U.M. W. of A. The following members: Albert E. Allen, Drumheller; Mike Winship, Rosedale; Max Stigler, Coleman, with one vacancy yet to fill, were elected board members. For the secretary-treasurership, Angus J. Morrison is being opposed for re-election by Joe B. Conroy, of Drumheller.

There are over 500,000 licensed radios now in use throughout the Dominion, and by the end of the fiscal year, March 31st, 1931, it is expected the total number of licensed sets in use will be about 600,000. All owners of radio receiving sets in Canada are required to take out a license from the radio branch of the Canadian government department of marine at a cost \$1.00.

Harry Setla, aged sixteen years, and Charles Sygtek, aged seventeen, charged with placing an obstruction on the highway near Coleman on Halloween night, were ordered bound over to keep the peace for six months and pay the costs of the court. Three juveniles, included in the offence, were each fined \$5.00. The parents of the boys undertook to pay the cost of damage to the car owned by Harry Cody, which, with six other persons riding in it, was overturned by the obstruction.

Miss Louise Knapman was a visitor to Lethbridge for Thanksgiving.

Dr. J. Olivier was down from Creston over the week end, visiting his family here.

Mr. and Mrs. Fred Thael and children, of Lethbridge, were motor visitors to Blaimore over the week end.

EYES EXAMINED—On Wednesday, November 19, at the Blaimore Pharmacy, E. J. ANDERSON, B.Sc., in attendance.

There will be a dance in the Lundbreck hall on the night of Friday, November the 21st. Alternatt orchestra furnishing music.

Procure your tickets on St. Anne's Tombola, drawing Saturday evening, November 15. Articles on display in the office of Sun Life Assurance Co.

Vulcan has entered the Foothills hockey league, composed of Nanton, Staveland, Claresholm, Macleod and Vulcan, and possibly Lethbridge.

F. W. Godel, well-known old-timer of Cowley, now residing in Victoria, B.C., is visiting in Blaimore and other parts of the district this week.

Miss Jean Farries, of Calgary, is a holiday guest of Miss Julie Dutil here. Miss Farries is connected with the staff of the Aetna Insurance Co.

Bingo, the game for one and all. Lay in your stock of groceries, 10¢ may win a week's supply. Saturday—St. Anne's Bazaar.

In the Thanksgiving marathon at Lethbridge, Charlie Connors and Johnnie Kerr, of Bellevue, came in first and second respectively. Connors' time for the three miles being 16 minutes, 41 seconds.

Copy for the programme of the seventh annual Crows' Nest Pass Musical Festival is now in the hands of the printers and will be issued in the course of the next few days. The festival takes place on April 6th, 7th and 8th, 1931.

THE PYTHIAN SISTERS will hold their ANNUAL BAZAAR in the Lodge Hall on Saturday, November the 22nd. There will be tables of home cooking, plain and fancy sewing and afternoon tea, etc. All prices reasonable. Don't fail to attend between 3 and 6 p.m.

The marriage is announced of Mr. Thomas Holstead of The Journal office to Miss Mildred Brown, youngest daughter of Mr. and Mrs. Theodore Brown, of Spring Point, Alberta, at Blaimore, on October 28, the Rev. J. W. Smith officiating. They returned to Coleman on Monday after a short honeymoon trip. Their many friends extend congratulations. — Coleman Journal.

Shipments of Nova Scotia apples to overseas markets continue in large volume. Including shipments during the week ending November 2, there have been shipped through Halifax 349,819 barrels of apples, while from Fort Williams the approximate shipments were 80,000, giving a total of about 430,000 barrels shipped from Nova Scotia for the English market. This is approximately 35,000 barrels more than were shipped up to the same date last year.

Messrs. W. Lord and G. Sangster were motor visitors to Calgary during the Thanksgiving holiday. They report road conditions exceptionally good for this time of the year, though they encountered some five inches of snow at the summit. They had Thanksgiving dinner in Calgary and as a result a turkey wing is reported missing. The wing was sent up from Blaimore by a special greyhound bus, and because of this free nourishment the travellers were enabled to take in the Scotchman's two-bit show in the city that afternoon.
